

TABLE OF CONTENTS

INTRODUCTION	i		
UNIT I: CHEMISTRY/BIOCHEMISTRY		UNIT VII: VIRUSES, PROTISTS, AND FUNGI	
I. Chemistry: The Basis for Life	1	I. Viruses	107
II. Biological Chemistry: Organic Molecules	5	II. Protists	109
UNIT II: PROKARYOTES/FERMENTATION		III. Kingdom: Fungi	115
I. Introduction to Cells and Prokaryotes	15	UNIT VIII: PLANTS	
II. Fermentation (Anaerobic Respiration)	21	I. Plant Kingdom	119
UNIT III: EUKARYOTIC CELLS/PHOTOSYNTHESIS		II. Plant Tissues	126
I. Cells II: Eukaryotic Cells	27	III. Mechanisms of Transport	130
II. Aerobic Respiration	36	IV. Factors that Influence Plant Nutrition	134
III. Photosynthesis	41	V. Chemical Regulation and Behavior	135
IV. Cell Cycle	45	UNIT IX: INVERTEBRATES	
UNIT IV: MEIOSIS/GENETICS		I. Kingdom: Animalia	141
I. Meiosis and Sex Cells: Sexual Reproduction	51	UNIT X: VERTEBRATES	
II. Introduction to Genetics	54	I. Introduction to Vertebrates	151
UNIT V: DNA/MOLECULAR GENETICS		II. Skeleton	154
I. DNA	65	III. Muscular System	157
II. DNA Replication and Synthesis	66	IV. Digestive System	160
III. DNA Repair	67	V. Respiration	166
IV. Mutations	68	VI. Circulation	170
Protein Synthesis	70	VII. Homeostasis: Thermoregulation	175
V. DNA – Molecular Genetics of Prokaryotes and Viruses	75	VIII. Excretory System	178
VI. Molecular Genetics of Eukaryotic Cells	78	IX. Endocrine System	182
VII. Recombinant DNA	84	X. Immune System	188
UNIT VI: EVOLUTION/SPECIATION		XI. Reproduction	194
I. Evolution	91	XII. Development	200
II. Speciation	98	XIII. Nervous System	204
III. Classification: Phylogeny	101	XIV. The Senses	210
		UNIT XI: ECOLOGY	
		I. Population Dynamics	215
		II. Community Interaction	217
		III. Ecosystems	220
		IV. Biosphere	224

LABS AND ACTIVITIES		
I. AP Labs Introduction	227	
AP Lab 1: Diffusion and Osmosis	229	
AP Lab 2: Enzyme Catalysis	231	
AP Lab 3: Mitosis and Meiosis	234	
AP Lab 4: Plant Pigments and Photosynthesis	238	
AP Lab 5: Cell Respiration	241	
AP Lab 6: Molecular Biology	242	
AP Lab 7: Genetics of <i>Drosophila</i>	246	
AP Lab 8: Population Genetics and Evolution	249	
AP Lab 9: Transpiration	251	
AP Lab 10: Physiology of the Circulatory System	253	
AP Lab 11: Animal Behavior	255	
AP Lab 12: Dissolved Oxygen and Primary Production	257	
II. Supplemental Labs		
Lab/Activity 1: The Rate of Paperase	261	
Lab/Activity 2: Gelatin and Enzyme Activity	262	
Lab/Activity 3: Chromatin Isolation Lab Using Onions	269	
Lab/Activity 4: Protein Synthesis and Words	271	
Lab/Activity 5: Amylase Regulation in Prokaryotes	273	
Lab/Activity 6: Corn Lab	278	
Lab/Activity 7: Genetic Dice Lab	284	
Lab/Activity 8: Evolution with Food	290	
Lab/Activity 9: Plant Project	296	
Lab/Activity 10: Invertebrate Project	303	
Lab/Activity 11: Population Estimation and Growth Simulation	304	
Lab/Activity 12: Stream Testing Lab	308	
III. Biology Problems of the Week		
1. Acid Rain and Life	313	
2. Bonding, Polarity, Water, and pH	313	
3. Cells and Organelles	313	
4. Photosynthesis and Aerobic Respiration	314	
5. DNA	314	
6. DNA and People	314	
7. Gene Regulation	314	
8. Recombinant DNA Technology	315	
9. Speciation	315	
10. Protist Mobile	315	
11. Alternation of Generation	315	
12. Build a Flower	316	
13. Construct a Plant	316	
PEOPLE IN SCIENCE		317
GLOSSARY		321
